

## THE AUSTRIAN RIOTS

## SPREADING TO OTHER TOWNS IN THE EMPIRE

The Houses of German and Jewish Various Towns Attacked—The Germans Making Reprials—A Number of Persons Injured. The Military Court at Prague in Session. With the Haugman and a Priest in Attendance for Summary Execution of the Aged Rioters.

Prague, December 2.—The city authorities, the Bohemian National and the students' associations, and the workmen's societies met today and appointed a vigilance committee. The stadtholder was then waited upon and informed that the object of the committee was to secure order and safety of life and property. The stadtholder was requested to withdraw the troops, but this he refused to do, declaring that he was responsible for the maintenance of order. The stadtholder, however, invited the deputation from the vigilance committee to request the committee to use its influence to prevent further disturbances.

Another regiment of infantry and a squadron of dragoons have arrived to reinforce the garrison here.

At Pilsen last evening the troops were called upon to disperse a riotous mob of several thousand youths. Some of the latter were wounded and many arrests were made. Subsequently the military forces were withdrawn. The town has since been quiet.

Owing to an attempt to wreck the Bohemian schools at Badenoch, military assistance has been asked for to quell the disturbances.

At Beraun the windows of the houses occupied by Germans and military officers were broken yesterday evening. The troops subsequently occupied the streets and dispersed the rioters.

Although the streets of Prague are still patrolled by military, business is being gradually resumed. A military court has been established at the court house, and the local hangman, his assistants and a priest, will remain there until further orders, in readiness to carry out death sentences, should such steps be necessary. The troops now here number twenty-six battalions of infantry and two squadrons of cavalry.

Serious excesses are reported to have been committed at Koenigsbrunn, where the Frankel hotel has been partly demolished. Troops have been dispatched there.

Reports from various places in Bohemia, including New Bidschow, Jelnik and Kralup, tell of disturbances during the last few days, the houses of Germans and Jews being attacked by the Czechs. The Germans of Bodenbach made reprisals in the neighboring Bohemian village of Krogelitz, where a school, two inns and a shop were attacked. A number of people were badly injured, despite the intervention of the police and burgomaster. The Germans also fomented riots at Gablonz, stoning a Bohemian school. It was necessary to call out the troops to quell the riot.

Vienna, December 3.—A deputation of Germans from Prague that waited upon Baron von Gausch von Frankenthurn, the new Austrian premier, yesterday assured that every measure possible would be taken to preserve order and protect property.

Herr Kramarsch, vice president of the reichsrath, declares that neither he nor Dr. von Abrahamovics, its president, will resign in the face of mob intimidation. He considers, however, that it will be impossible to carry the Austro-Hungarian compromise bill in the reichsrath, and that the present arrangement with Hungary will have to be prolonged by imperial decree without the consent of the reichsrath. This probably means the indefinite prorogation of that body and the reign of something like absolute government.

The enforcement of the system of summary trial without appeal at Prague speedily quieted the disturbances there. Four rioters who were arrested yesterday were tried last night and sentenced to twenty years penal servitude within three hours of the time of their arrest. There seems little to choose between the Germans and the Czechs. In towns where the former predominate they have committed serious excesses against the latter.

## Thorn Sentenced

New York, December 3.—Martin Thorn, or Torceswilly, convicted on Monday of the murder of William Guildenpue, was today sentenced to be electrocuted in the week beginning January 10, 1938.

When Thorn was brought into court in Long Island City he stepped briskly, walking between two officers, as he had done on the days when he was on trial. He preserved the same calm, imperturbable expression of countenance that he had worn at every crisis in the working out of his fate during the trial, and when, as a preliminary to the passing of sentence of death, Judge Maddox put the customary questions to him, he responded promptly, collectedly and without outward evidence of emotion.

Thorn listened to the sentence without moving a muscle and when the judge had finished, he inclined his head slightly forward as if bowing to the court. The prisoner's lawyers then handed up an affidavit applying for an appeal.

Justice Maddox took the affidavit and will pass on it later. Thorn will probably be removed to Sing Sing at once.

## How to Look Good

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver be inactive, you have a bilious look; if your stomach be disordered, you have a dyspeptic look; if your kidneys be affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alternative and Tonic. Aids directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at R. R. Bellamy's Drug Store. 10 cents per bottle.

## A \$2,000,000 Suit Dismissed

Baltimore, December 3.—Dr. Harrison Wagner today lost his suit to recover nearly \$2,000,000 from the county commissioners of Frederick county. Judge Morris, in the United States court before whom the case was tried without a jury, decided that there was no prima facie evidence of the validity of the 11,000 magistrate judgments against the county commissioners upon which Dr. Harrison Wagner had based his claim. A verdict was accordingly rendered for the commissioners. The certified copies of the alleged judgments filed a trunk, which Dr. Wagner had sent to the court from Washington yesterday morning. These judgments purport to have been obtained before the late Justice Haynes, of Frederick county. Each is for \$100 and \$1.30 costs, aggregating \$1,114,300 and the interest making up the sum of \$1,875,315 claimed by Dr. Wagner.

## THE PRESIDENT'S MOTHER

Her Condition Growing Gradually Worse. Not Expected to Live Through the Night. Mr. McKinley Compelled to be in Washington Monday

Canton, Ohio, December 3.—At a late hour tonight "Mother" McKinley was reported sinking and the physician fears she will not live until morning. Whatever the outcome, President McKinley will be in Washington for the opening of congress next Monday.

Although there has never been in the history of the government a case exactly similar, it is necessary for the president to be at the capital in person at the opening of a session of congress to receive the joint committees from the two houses. Until this committee has waited on the president and received his communication the regular business of congress cannot proceed. He has arranged to leave Canton at 2:05 o'clock tomorrow afternoon in the special car provided for him at the regular Pennsylvania train which reaches Washington Sunday morning. He will leave Washington as soon as possible after attending to the functions of opening congress.

The train bearing the president made record-breaking time after leaving Pittsburgh. At that place Assistant Secretary Day, while the president was asleep, accepted the offer of the railroad company and a special engine was attached to the car. Without the loss of a moment, the special engine dashed out of the smoky city. All trains on the route were put on side tracks and the last 101 miles were reeled off in two hours.

Canton, Ohio, December 4.—12:50 a. m.—Mrs. McKinley is still living; growing steadily weaker.

## THE PRESBYTERY ACTS

Rev. A. J. McKelway's Pastoral Relations Severed—Matters Personal and Social

(Correspondence of The Messenger.) Fayetteville, N. C., December 2.

Fayetteville Presbyterian met in the Presbyterian church at 7 o'clock last evening, Rev. Mr. Ferguson acting as moderator and Rev. P. R. Law as secretary.

Besides the members of the body, there was quite a large gathering of those interested in the proceedings. Representing the Fayetteville congregation, protesting against the dissolution of the pastoral relations, Captain S. C. Rakin and Messrs. H. McD. Robinson and G. G. Myrover addressed the assembly. Rev. A. J. McKelway, spoke forcibly as to his position and his convictions of duty, and Rev. Dr. H. G. Hill and Mr. Craig urged the granting of Mr. McKelway's request. Dr. Hill's remarks were able, clear and convincing. Evidently presbytery regarded the superintendency of home missions and the editorial management of The North Carolina Presbyterian as forming a field of work of greater importance than the pastorate of the church, for the relations were dissolved by an overwhelming vote.

Fayetteville is much pleased to learn that Colonel Gardner, chief engineer of the Atlantic Coast Line system, contemplating residing in Fayetteville hereafter. He has just as many friends here as he has acquaintances, who will cordially welcome him, and make pleasant the home if the evening of his days.

Mr. Herbert Lutterloh and the fair bride whom Wilmington bestowed on him have returned from their wedding trip, and are making their home with Mr. and Mrs. T. S. Lutterloh on Haymont. They have the Messenger's cordial wishes for their future happiness.

Mr. George Holderness, the very popular new manager of the telephone system, is giving excellent service and making many improvements.

Mr. and Mrs. Marbury and Mrs. Victor Grainger have been making a brief visit to the families of Judge MacRae and Mr. E. J. Lilly.

It is learned that the cigarette man, Mr. J. B. Underwood has been compromised for about 33-1/3 per cent. of the amount claimed. It was a strong case, and there were some "dark doings" against him.

## A General and Heavy Snow Storm

Cedar Rapids, Iowa, December 3.—Eight inches of snow and suspension of street car traffic is the situation here.

Omaha, Neb., December 3.—Snow has fallen in Nebraska continuously for twenty-four hours and in some parts of the state it continues. At Omaha the fall amounts to about eight inches and in the northern part of the state it is much heavier. Hartington reports sixteen inches and still falling. The snow is general in western Iowa and South Dakota. The storm has stopped the gathering of corn, with fully a fifth of Nebraska's big crop yet in the field. The movement of trains is greatly hampered and the wind, which is rising tonight, may cause troublesome drifts.

Minneapolis, Minn., December 3.—The first accident due to the present blizzard occurred at Durham, Mont., this morning. A Great Northern passenger train was derailed, engineer William Clark was killed and three other trainmen were injured.

Kansas City, Mo., December 3.—Though the snow storm of yesterday and today has been general throughout Kansas and northern and western Missouri, railway traffic has been but slightly impeded. In southern Kansas, where the fall of snow has been unusually large for the season and where zero weather was experienced this morning, there is some suffering among settlers who had neglected to secure fuel.

## Slosson the Champion

New York, December 4.—By defeating the champion Ives, George F. Slosson, won the series in the billiard tournament for the championship of the world. During this series the "student" has won against all of his opponents, taking four games. Tonight's game was one of the finest exhibitions ever given here. Ives held the lead until the very last inning, being within one of the game when Slosson, far behind, took up his cue. The "student" by marvellous work ran out and won with sixty points in the forty-first inning. Schafer takes second place with three games won, Ives third, Daly fourth and Sutton. Those who lost all his games, last Ives wins the best grand average prize and the prize for the highest run which is the record, 140.

German Reinforcements for China Berlin, December 4.—The German reinforcements which will be sent to Kiao-Cou bay consists of four companies of marines consisting of twenty-three officers and 1,200 men, a company of naval artillery numbering 200 men, and several pieces of field artillery and a number of machine guns.

## IMPORTANT TAX QUESTION

## WHETHER FERTILIZER DEALERS MUST PAY PURCHASE TAX

The Treasurer and the Attorney General Differ in Opinion—A Shop For Is Giving Away Trees from the Capitol Square—Remains for Arrest of the Murderer of Engineer Bumgardner—Ceremonies at the Interment of Remains of General Cleggman

Messenger Bureau. Raleigh, N. C., December 3.

John F. Croom, of Magnolia, writes the agricultural department that he is a dealer in commercial fertilizers and that the commissioners of his county, Duplin, insist that he must pay the "merchants' purchase tax" on fertilizers. He insists that the tonnage tax covers all taxes on fertilizers. The commissioner of agriculture did not pass on the matter, but sent it to the treasurer, together with section 2205 of The Code, which says that whenever any manufacturer of fertilizers shall have paid the tonnage tax his goods shall not be liable to taxation by any city, town or county. The treasurer refers the case to the attorney general, who says that under section 22 of the revenue act of 1897 Croom is clearly liable; that he is simply a buyer and seller of fertilizer. The treasurer does not take the same view. No doubt Croom will make up a case so the supreme court may pass upon the matter. This year's sales of fertilizers in this state exceed \$4,000,000, so the tax is quite an item, of course.

The agricultural department reports that the sales of fertilizers this autumn are 33-1/3 per cent. greater than they were a year ago.

Methodist ministers, who are here in such great numbers, say they find the people the state bent upon having good government. The populists are very earnest about this matter, they say.

Rains are again falling. The state is badly behind on rain. Small grain needs it. Cotton fields are being ploughed up and put in wheat.

It is said that it was the purpose today to give away some more trees from the Capitol square to private individuals. But the board of public buildings and grounds has checked the movement.

The annual meeting of the directors of the insane asylum here will be held next week.

This year not a company of the state guard has been disbanded.

For Osborne, ambushed, the white tramp who murdered Engineer Bumgardner near Hendersonville, no less than \$800 reward is offered, \$300 being by Mrs. Bumgardner. It is believed that the murderer is in hiding near the scene of his crime.

The republicans are now saying that next year they expect to nominate congressmen in each district in the state. They think they can do without populist help.

There is to be another hearing, of Governor Russell's side, in the North Carolina railway lease matter this month before Special Master Kerr Craige. The time for hearings ends January 26th.

John C. Dancy, colored, says he is now sure of the appointment as collector for the Wilmington.

A snowy owl, 5 feet from tip to tip, was received at the state museum today. It was shot Tuesday during the day in Hyde county. It is the second ever killed in the state. It is a true Arctic owl. Some times during the winter these owls make a flight as far south as Long Island.

The ceremonies at the interment of General Cleggman's remains at Asheville will be imposing. There will be a battalion of troops, the Bingham cadets, the confederate veterans and the sons of veterans. Revs. J. S. Felix and McNeely DuBoise officiate. W. H. S. Burgwyn, Theodore F. Davidson and V. S. Lusk will make memorial addresses.

The first great Methodist revival in North Carolina occurred here in 1811, during the first meeting of the Virginia conference here. It met in the old capital. At that time, and in fact for many years later, there was no North Carolina conference.

It is said that the failure of the Piedmont bank at Morganton will be a bad one.

During November the highest temperature here was 76, the lowest 27 degrees; the mean 53, or 2 degrees above the average. The rainfall was 3.43 inches, an inch above the average. The deficiency in rainfall this year is 16.78 inches.

## Those Who Endure

The pains of rheumatism should be reminded that a cure for this disease may be found in Hood's Sarsaparilla. The experience of those who have taken Hood's Sarsaparilla for rheumatism, and have been completely and permanently cured, prove the power of this medicine to rout and conquer this disease. Hood's Sarsaparilla is the One True Blood Purifier and it neutralizes the acid which causes the aches and pains of rheumatism. This is why it absolutely cures when liniments and other outward applications fail to give permanent relief. Be sure to get Hood's.

Virgil Staley, who murdered his brother-in-law in Wayne county, West Virginia, escaped from the Wayne county jail Saturday morning, after a desperate encounter with Jailor Booth.

## BRADFIELD'S FEMALE REGULATOR

is for women's diseases and irregularities. It cures everything that is commonly called a "female trouble." It acts directly upon all the distinctly feminine organs of generation, driving out weakness and imparting strength, stopping unnatural drains, and regulating the monthly flow in every instance. It makes sickly and weakly women strong and well again. \$1 a bottle at drug stores. Send for a free book about it. The Bradfield Regulator Co., Atlanta, Ga.

## HAYTIANS EXCITED

Over News of Approach of Two German Warships—The "Warships" are Naval Schoolships Now Cruising in the West Indies

Washington, December 3.—The Haytian minister, Mr. Leger, was an early caller at the state department today, having news from home of a most disquieting nature, of which he wished to talk with the officials. Secretary Sherman being still confined to his home by a cold, and Assistant Secretary Day having attended the president on his journey to Canton, Second Assistant Secretary Ade was acting as secretary of state, and to him Minister Leger had recourse. It appears that his government has cabled him from Port au Prince that the Haytian consul at Kingston, J. A. had telegraphed that two German warships sailed yesterday for the place for Port au Prince. The news had created the greatest excitement in the town and all over the island, and disturbances were apprehended.

The foundation for the statement is believed to be that the two German schoolships which have been cruising in southern waters, are just starting on their way northward to the United States. About the middle of last September the German charge d'affaires here, Mr. Relche, formerly advised the state department that the German cadetship Stein would arrive at Charleston, S. C., February 2nd next, and that the cadet schoolship Charlotte would arrive at the same port February 11th. They are to depart on the 5th and 16th of February, respectively. Neither of these vessels can properly be regarded as warships, although they are attached to the German navy and carry a large number of young naval cadets. Nevertheless, the Haytian minister fears that their appearance in Hayti is just at this juncture, when the threat has been made that German warships will make a demonstration in the harbor of Port au Prince, may lead to serious trouble there.

## The Freight Car Equipment Hearing

Washington, December 3.—The hearing given by the inter-state commerce commission on the question of extending the time within which the railroads of the country may comply with the provisions of the car coupler and train brake act, was concluded at noon today. The commission intends to take some supplementary testimony, under which before coming to a decision. There seems to be no doubt that an extension will be granted and that the extension will be general in its character, the hearing having demonstrated that discrimination would fall as heavily on roads which have complied with the law as those which have thus far disregarded it. The general interest among both the railroad men and the labor leaders who are in attendance on the hearing is that the extension granted by the commission will be a compromise. The railroad representatives asked for five years, with the condition that one-fifth of the unequipped rolling stock of each road should be equipped each year, and the representatives of the railroad organizations protested against an extension in excess of one year. Three years is generally believed to be the maximum extension which the commission will grant. The commission is evidently in great doubt as to its ability to make a decision on an extension, and it may be that it will grant, but extension at a time with the understanding that against those roads which do not comply with the provisions of their equipment during that period the law shall become operative.

## Dover, N. H., Oct. 31, 1896.

Messrs. Ely Bros.: The Balm reached me safely and in good time. The effect is surprising. My sore throat, first application gave decided relief. I have a shelf filled with "Catarrh Cures." Tomorrow the stove shall receive them and Ely's Cream Balm will reign supreme. Respectfully,

MRS. FRANKLIN FREEMAN.

Cream Balm is kept by all druggists. Full size 50c. Trial size 10c. We mail it.

ELY BROS., 55 Warren St., N. Y. City.

## Internal Revenue Figures for Last Year

Washington, December 2.—In his annual report to the secretary of the treasury, Mr. Forman, the commissioner of internal revenue, estimates that the receipts from all sources for the current fiscal year will aggregate at least \$155,000,000, an increase over 1897 of \$15,000,000. A comparative statement of the receipts during the last fiscal year is given as follows: Spirits \$2,008,543, increase over 1896 \$1,338,472; tobacco \$30,710,297, decrease \$1,331; fermented liquors \$32,472,162, decrease \$1,312,073; oleomargarine \$1,034,129, decrease \$185,302; filled cheese \$18,392,926, decrease \$18,392; banks and bankers \$85, decrease \$45; miscellaneous \$375,383, decrease \$69,729; total receipts \$146,619,593, decrease \$211,022.

The withdrawals for consumption during the year are given as follows: Fruit brandies, 1,146,131 gallons, decrease 294,679; spirits distilled from grain 68,833,231 gallons, increase 1,793,313; beer 84,423,994 barrels, decrease 1,403,004; cigars 1,000, number 4,083, decrease 174,588,846; cigarettes weighing not over 3 pounds per 1,000, number 4,151,669,760, increase 109,278,120; cigarettes weighing over 3 pounds per 1,000, number 1,582,710, increase 175,613; snuff, 13,268,640 pounds, increase 720,041; tobacco chewing and smoking, 260,734,812 pounds, increase 7,067,675; oleomargarine 4,534,559 pounds, decrease 5,098,214; filled cheese 1,666,137 pounds (law became operative during the year).

## Latest News From Cuba

Havana, December 4.—News has been received here of a fire which occurred yesterday at Jaruaco, a town of 10,000 inhabitants, in this province. About 500 persons were destroyed, and nearly all their contents. No accurate estimate of the amount of damage can be made. Hundreds of families have been rendered homeless and the situation at Jaruaco is very distressing. The fire originated through an accident.

According to an announcement issued from Spanish headquarters this afternoon, the Spanish forces belonging to the Manzanillo division have had a sharp engagement with the insurgents at Piedra, province of Santiago de Cuba, with the result that they captured all the positions of the enemy and compelled the insurgents to retreat with numerous losses. "Owing to an accident to the field columns," the announcement continues, "twelve soldiers were killed and Major La Torre, Drs. Matorell and Sibill, a chaplain attached to the Baza battalion and thirty-eight soldiers were wounded."

Reports from Pinar del Rio city say that smallpox is rapidly spreading there and that thirty deaths occurred recently from the disease. Many deaths from the same cause are reported from other towns. Dr. Jover, of the Havana sanitary board, has been commissioned to proceed to Pinar del Rio for the purpose of vaccinating the inhabitants and thus preventing the further spread of the scourge.

It is announced that the grinding of sugar cane will be begun before December 15th on the central plantations Constancia, Andrieta and Doshermanos in the Cienfuegos district.

## GUERRILLA WARFARE

## TO BE INAUGURATED IN CUBA BY GENERAL BLANCO

With This He Thinks He Can Subjugate Most of the Island by June—Fifty Thousand "Concentrados" in Pinar del Rio Town—Fifteen Thousand of Them Orphaned and the Majority Children—Ailsa West—Autonomist Organ Approves the Government's Plan

Madrid, December 3.—The newspapers publish the following which is much commented upon:

"Captain General Blanco has cabled the government that General Correa, minister of war, being opposed to sending further reinforcements, he has studied the means of creating a volunteer corps of whites and negroes who would reply to the guerrilla tactics of the rebels by similar warfare; but he would need for this undertaking 4,000,000 pesetas monthly. He is convinced that by making such a pecuniary effort Cuba, except in the eastern part, would be pacified by June next, when the local government could finish the war."

Havana, December 3.—Senor Canalejas, the special commissioner of the Spanish government, has returned from his visit to the province of Pinar del Rio. He says there are in the province 40,000 "concentrados"—peasants gathered in from the country in the neighborhood of the towns for protection from the insurgents, or to prevent them from joining the enemy, and that they are all in want. Of this number 15,000 are orphans and the majority are children of tender years.

There is great anxiety here to know the terms of the message of President McKinley to congress. The central committee of the autonomist party has passed a vote of confidence in its president, as a result of the latter's negotiations with the reformist party to bring about a union of both parties. Consequently, Jose Pelion, Carlos Font, Antonio Mesa and Dominguez, all lawyers, have withdrawn their resignations as members of the central committee of the autonomists.

It was officially announced today that the Spanish cavalry, in pursuing the insurgents under General Ducaul, who is said to have been badly defeated recently in Pinar del Rio by the Spanish forces under General Bernal, has surprised an insurgent force, killing nineteen of the enemy and capturing five mounted men.

The Marquis de Apezteguia, president of the standing committee of the Planters' Association, expresses the opinion that all signs indicate the success of the season's sugar crop.

Although the reformists have appointed a committee to negotiate with the autonomists, it is believed nevertheless that nothing definitely will be decided upon until the arrival from Madrid of leading members of the party who have been appointed as delegates by the Cuban reformists there and who are now on the way.

The governor of Pinar del Rio is endeavoring to relieve the critical situation in that province, where a majority of the inhabitants are identified with the tobacco trade. The crop this year is only half the normal, though some good judges have put it at about 60 per cent. of the usual yield.

Washington, December 3.—Information was received here today from Havana that the organ of the autonomist party of the island has issued a formal circular, declaring, in behalf of the Cuban autonomists, that they were satisfied with the plan of Cuban autonomy now extended to Cuba, a realization of the policy they had urged from the beginning of the century; expressing the greatest hopes in the new regime, and declaring that with the fulfillment of all the aspirations of the Cuban people, there remains no reason for continuing the fight in the field. The statement closes with a patriotic appeal to the men in arms to return to the peaceful homes of their regenerated fatherland.

This declaration from the autonomists of Cuba is said to be an important feature in the present situation, as the success of the autonomy plan granted by Spain is dependent on the attitude of Cuban autonomists toward it.

## Bucklen's Arnica Salve

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction of money refunded. Price 25 cents per box. For sale by R. R. Bell m.y.

## Desperate Encounter With a Maniac

Virginia, Minn., December 2.—Doctors Correy and Miller of the local hospital, had a desperate encounter with an insane Italian who attacked them with a razor. Dr. Correy received wounds which will disfigure him for life. Dr. Miller came to his assistance and the maniac immediately went to him, cutting his throat from the middle of his neck to his ear, but luckily did not sever the jugular vein. After this the maniac ran out and attacked the hostler, Nelson, inflicting a slight wound in the leg. Chief of Police Bellanger appeared at this time, and presenting a revolver, ordered the Italian to drop the razor which he did after attempting to cut his own throat. Dr. Miller is in a critical condition.

## Winston Sentinel: Winston sold 1,935,614

pounds of leaf tobacco during the month of November for \$19,613.32. This is an average of \$1.00 per 100 pounds.

## The Carolina Twins Will Remain One Week

Longer

According to the large crowds that daily visit Mille Christine, she could certainly remain in this city for several weeks to come, but owing to previous engagements she is compelled to close her engagement here this coming week. Those who desire to see her must go this week, any afternoon from 2:30 to 4, or night from 7:30 to 9 o'clock, as she retires from public life at the conclusion of this season's engagement. A well known physician in this city, in describing her, says "They are not two persons, but she is more than one." In Boston 100,000 people visited her while exhibiting in Masonic Temple. The medical works that speak of her are Appleton's Encyclopedia, volume 11 under the letter M, Reference Hand Book of Medical Science, Chambers' Encyclopedia Britannica, volume 16 under M. Kings, queens, emperors and presidents have seen and talked to her. No one should miss this opportunity of seeing her, as she is the only woman of her kind on earth, and her like you may never see again. Her large pavilion is located on the corner of Sixth and Red Cross streets. Ten cents extra admission to all.

Winston Sentinel: Winston sold 1,935,614 pounds of leaf tobacco during the month of November for \$19,613.32. This is an average of \$1.00 per 100 pounds.

## THE UNITED STATES COURT

The Argument in the Bald Head Case Concluded—Judge Purnell Reserves His Decision—Other Cases Disposed of

Pursuant to adjournment for recess Friday afternoon, the United
